

EL GHALI SANY

Master's Applicant - Prince Sattam bin Abdulaziz University | Digital Transformation | Emerging Technologies | AI Governance

sanyghali@gmail.com | +33 7 81 95 70 70 | LinkedIn: Elghali Sany | Portfolio: <https://el2545.github.io/portfolio-PRINCE-SATTAM-BIN-ABDULAZIZ-UNIVERSITY/>

ACADEMIC PROFILE

Management, Finance and Accounting graduate and current MSc Procurement and Supply Chain Management student with applied experience in financial modelling, KPI reporting, investment appraisal, credit-risk analysis, digital-transformation governance, and data-supported decision frameworks. For Prince Sattam bin Abdulaziz University's Digital Transformation and Emerging Technologies program, my profile connects managerial decision-making with AI governance, emerging technologies, performance measurement, data governance, smart-city readiness, and responsible implementation. My proposed research develops an integrated readiness framework for AI-enabled digital transformation in Saudi smart-city megaprojects, using NEOM as a bounded conceptual case setting and translating strategy, ROI, operational feasibility, data governance, stakeholder trust, and Islamic business ethics into auditable criteria.

EDUCATION

MSc Procurement and Supply Chain Management | INSEEC Business School, Lyon, France | Oct. 2025 - Present

Graduate coursework and projects in procurement performance, cost analysis, operations management, forecasting, KPI modelling, and data-based decision-making.

Developing analytical tools for resource allocation, institutional performance, operational efficiency, and managerial reporting.

Professional Bachelor's Degree in Management - Financial and Accounting Management | International University of Casablanca, Morocco | Sept. 2022 - Jul. 2025

Graduated with High Honors / Mention Tres Bien; core training in accounting, corporate finance, management control, financial analysis, statistics, economics, business law, and organizational management.

Final project evaluated outdoor advertising investment profitability in Casablanca using traffic flows, location variables, costs, regulation, and financial performance indicators.

RESEARCH AND ACADEMIC PROJECTS

Integrated Readiness Framework for Assessing AI-Enabled Digital Transformation and Emerging Technologies in Saudi Smart-City

Megaprojects | PSAU DTET Research Proposal | NEOM conceptual case setting | May 2026

Designed a DTET-oriented readiness framework comparing a generic digital-transformation checklist with an integrated assessment model.

Integrated strategic alignment, investment discipline, operational feasibility, data governance, stakeholder trust, and Islamic business-ethics criteria.

Planned methods include thematic literature synthesis, directed document analysis, codebook construction, pilot scoring, synthetic NEOM-based scenarios, paired comparison, coverage analysis, and sensitivity testing.

Positioned the output as a reproducible managerial assessment tool, not a technical AI system or an operational audit of NEOM.

AI-MCDM Investment Scoring for Smart Cities under Carbon, Energy, and Geoeconomic Risk | Research Manuscript | INSEEC Business School | May 2026

Built an AI-enabled multi-criteria investment scorecard combining XGBoost forecasting, carbon-adjusted DNPV reasoning, real-options logic, Fuzzy-AHP/MEREC weighting, and AROMAN ranking.

Connected emerging technologies, investment analytics, smart-city infrastructure, carbon risk, geoeconomic exposure, and ranking auditability.

Positioned the framework as decision-support evidence for transparent capital allocation rather than automated optimization.

Outdoor Advertising Profitability Based on Road Traffic: Casablanca Case | Bachelor Final Project | UIC / 2ACOM | 2025

Assessed traditional and digital outdoor advertising investments using SUMO traffic simulation, QGIS mapping, socio-economic indicators, regulatory constraints, and financial modelling.

Built a model covering CAPEX, OPEX, TCO, ROI, break-even analysis, and a Potential Profitability Index across strategic Casablanca zones.

Converted traffic-exposure and financial evidence into location-investment recommendations for advertising operators.

PROFESSIONAL EXPERIENCE

Business Analysis Intern - Financial Performance | SAN MAROC, Casablanca / Remote | Feb. 2026 - Present

Analyzed a MAD 97.9B non-performing-loan portfolio using debt aging, recovery probability, and collection-priority logic.

Reduced reporting cycle time by 40% using VBA and Power Query; prepared dashboards for collection indicators, payment delays, and recovery rates.

Developed practical exposure to credit-risk analysis, portfolio monitoring, recovery prioritization, and financial-performance reporting.

Business Analysis Intern - Performance and KPIs | 2ACOM Advertising Sales Agency, Casablanca | May 2025 - Jul. 2025

Built a five-year financial model integrating ROI, CAPEX, OPEX, TCO, revenue assumptions, and break-even logic.

Designed a multi-criteria profitability index with 15+ variables across five Casablanca market zones to support investment-location decisions.

Analysis and Reporting Intern - Client Portfolios and Risk | MAGHREBAIL Leasing and Financing, Casablanca | Jul. 2024 - Aug. 2024

Analyzed financial performance and credit-risk exposure across 20+ corporate client portfolios.

Improved reporting outputs related to client commitments, leasing finance, and portfolio monitoring.

CORE SKILLS

Digital Transformation and Emerging Technologies: digital-transformation readiness; AI governance; emerging-technology assessment; data-governance criteria; smart-city governance; responsible implementation; stakeholder trust.

Data and Decision Analytics: Advanced Excel; VBA; Power Query; Power BI; Python fundamentals; basic SQL; dashboard design; codebook and scoring-sheet design; scenario analysis.

Financial Modelling and Performance: NPV; ROI; CAPEX; OPEX; TCO; DCF reasoning; break-even analysis; recovery KPIs; credit-risk analysis; portfolio segmentation.

Research and MCDM Methods: directed content analysis; thematic synthesis; AHP; TOPSIS; MEREC; COPRAS; AROMAN; sensitivity analysis; reproducibility logs.

Spatial and Infrastructure Analytics: QGIS; SUMO; traffic-exposure analysis; investment-location maps; site-scoring matrices; smart-city infrastructure appraisal.

LANGUAGES

Arabic: Native | French: C2 - TCF QCM 693/699; written expression B2 | English: B2 - TOEFL iBT 90/120 equivalent

ACTIVITIES AND ACADEMIC INTERESTS

Leo Club: participation in community-service and student activities. Cultural and Artistic Club, International University of Casablanca: participation in cultural and university activities.

Academic interests: digital transformation, AI governance, emerging technologies, smart-city management, data governance, project performance, investment appraisal, Saudi Vision 2030, responsible innovation, and sustainable finance.
