

EL GHALI SANY

Master's Applicant - Prince Sattam bin Abdulaziz University | Digital Transformation and Emerging Technologies
Lyon, France | sanyghali@gmail.com | +33 7 81 95 70 70 | LinkedIn: Elghali Sany | Arabic Native | French C2 | English B2

Target Program: Master in Digital Transformation and Emerging Technologies - English track - Al-Kharj - Academic Year 2026/2027

ACADEMIC PROFILE

Management, Finance and Accounting graduate and current MSc Procurement and Supply Chain Management student with applied experience in financial modelling, KPI dashboards, credit-risk analysis, investment appraisal, GIS/traffic-based ROI modelling, and data-supported decision frameworks. My profile is aligned with PSAU's Digital Transformation and Emerging Technologies direction through AI governance, enterprise-architecture logic, data governance and privacy, emerging-technology readiness, digital-service efficiency, and Saudi Vision 2030-oriented institutional performance.

PRINCE SATTAM / DTET ALIGNMENT

Application positioning built around PSAU-relevant priorities: digital transformation strategic planning; enterprise architecture and technology-roadmap assessment; data management, governance and privacy; AI-enabled decision support; sandbox/prototype evaluation of emerging technologies; smart digital services; stakeholder trust; cybersecurity-aware transformation; and measurable value realization for Saudi public-service and smart-city contexts.

EDUCATION

MSc Procurement and Supply Chain Management | INSEEC Business School, Lyon, France | Oct. 2025 - Present

Graduate coursework and projects in cost analysis, procurement performance, operations management, forecasting, KPI modelling, and data-based decision-making.

Developing analytical tools for resource allocation, operational efficiency, institutional performance, and managerial reporting.

Professional Bachelor's Degree in Management - Financial and Accounting Management | International University of Casablanca, Morocco | Sept. 2022 - Jul. 2025

Graduated with High Honors / Mention Tres Bien; core training in accounting, corporate finance, management control, financial analysis, statistics, economics, business law, and organizational management.

Final project evaluated outdoor advertising investment profitability using traffic flows, location variables, regulatory constraints, and financial indicators.

RESEARCH AND ACADEMIC PROJECTS

Integrated Readiness Framework for Assessing AI-Enabled Digital Transformation and Emerging Technologies in Saudi Smart-City

Megaprojects | PSAU DTET Research Proposal | NEOM conceptual case setting | May 2026

Designed a DTET-oriented readiness framework comparing a generic digital-transformation checklist with an integrated strategic performance-readiness model.

Integrated strategic alignment, ROI discipline, operational feasibility, data governance, stakeholder trust, Islamic business ethics, and emerging-technology risk control.

Aligned the proposal with PSAU-relevant domains: enterprise architecture, digital innovation, AI and emerging technologies, data governance, digital-government collaboration, and Vision 2030 transformation logic.

Planned reproducible methods: literature/policy coding, source log, codebook, 0-3 scoring rubric, synthetic NEOM scenarios, paired comparison, coverage analysis, and sensitivity testing.

AI-MCDM Investment Scoring for Smart Cities under Carbon, Energy, and Geoeconomic Risk | Research Manuscript | INSEEC Business School | May 2026

Built an AI-enabled multi-criteria scorecard combining XGBoost forecasting, carbon-adjusted DNPV reasoning, real-options logic, Fuzzy-AHP/MEREC weighting, and AROMAN ranking.

Connected emerging technologies, infrastructure finance, smart-city investment, carbon risk, geoeconomic exposure, and auditability of decision-support outputs.

Outdoor Advertising Profitability Based on Road Traffic: Casablanca Case | Bachelor Final Project | UIC / 2ACOM | 2025

Assessed traditional and digital outdoor advertising investments using SUMO traffic simulation, QGIS mapping, socio-economic indicators, regulatory constraints, and financial modelling.

Built CAPEX/OPEX/TCO/ROI and break-even models plus a Potential Profitability Index across strategic Casablanca zones.

PROFESSIONAL EXPERIENCE

Business Analysis Intern - Financial Performance | SAN MAROC, Casablanca / Remote | Feb. 2026 - Present

Analyzed a MAD 97.9B non-performing-loan portfolio using debt aging, recovery probability, and collection-priority logic.

Reduced reporting cycle time by 40% with VBA and Power Query; prepared dashboards for collection indicators, payment delays, and recovery rates.

Strengthened practical exposure to risk monitoring, data cleaning, KPI reporting, and performance-control logic.

Business Analysis Intern - Performance and KPIs | 2ACOM Advertising Sales Agency, Casablanca | May 2025 - Jul. 2025

Built a five-year financial model integrating ROI, CAPEX, OPEX, TCO, revenue assumptions, and break-even logic.

Designed a multi-criteria profitability index with 15+ variables across five Casablanca market zones to support investment-location decisions.

Analysis and Reporting Intern - Client Portfolios and Risk | MAGHREBAIL Leasing and Financing, Casablanca | Jul. 2024 - Aug. 2024

Analyzed financial performance and credit-risk exposure across 20+ corporate client portfolios and improved portfolio-monitoring reports.

CORE SKILLS

Digital Transformation: readiness assessment; digital strategy; process modernization; service-efficiency logic; transformation KPIs; value realization.

Emerging Technologies: AI governance; IoT/blockchain/cloud/AR-VR opportunity assessment; sandbox and prototype evaluation logic; responsible adoption.

Enterprise Architecture and Governance: capability mapping; source logs; codebooks; scoring rubrics; documentation trails; accountability and risk-control criteria.

Data Governance and Analytics: data lifecycle thinking; privacy-aware reporting; Power Query; advanced Excel; VBA; Power BI; Python fundamentals; basic SQL.

Financial and Decision Modelling: ROI; NPV; CAPEX; OPEX; TCO; break-even; recovery KPIs; credit-risk segmentation; scenario and sensitivity analysis.

MCDM / Research Methods: directed content analysis; thematic synthesis; AHP; TOPSIS; MEREC; COPRAS; AROMAN; auditability and reproducibility controls.

Spatial / Infrastructure Analytics: QGIS; SUMO; traffic-exposure analysis; site-scoring matrices; smart-city infrastructure appraisal.
